## 2019

Excavation Season  
HIPPOS-SUSSITA  
ARCHAEOLOGY  
FIELD SCHOOL

The ancient city of Hippus, one of the Decapolis, was erected upon the plateau of Sussita Mountain overlooking the Sea of Galilee which stretches west of it.

The Hippus dig offers an exciting opportunity in one of the most dramatic sceneries in the region.

The team will lodge in the beautiful Kibbutz Ein-Gev on the shores of the Sea of Galilee.

During the upcoming season we plan on excavating the following areas:

- The Roman Theater
- The Roman Sanctuary
- The Byzantine burnt church
